# INDEX TO VOLUME CXXXVIII.

**Abbott, S. W.** Consumption, an indoor disease, 1; progress in public hygiene, 370, 397.

**Abdominal Surgery.** Abdominal incisions, Woolsey, G., 119; two cases of rupture of the viscera, Monks, G. H., and Lund, F. B., 127; a case of rupture of the small intestine from contusion of the abdomen, resection of the bowel five hours after the injury, recovery, Watson, F. S., 129; fluid from an abdominal tumor, Richardson, M. H., 255; two cases illustrating the value of exploratory laparotomy, Reynolds, E., 517, 524.

**Abuse of Medical Charity,** 23; the recent movement against abuse of medical charity in New York, 525.

**Actinomycosis,** Walker, J. E., 184.

**Adenoids.** On some forms of adenoid disease which are often overlooked and on conditions which may simulate adenoid disease, Farlow, J. W., 365, 375; secondary hemorrhage following the removal of adenoid vegetations, Preble, W., 467.

**Alcohol.** State monopoly of the manufacture of alcoholic beverages in France, 163; treatment of delirium tremens, Crothers, T. D., 186.

**Alexander, S.** Prostatectomy and prostatotomy, suprapubic and perineal, 185.

**Alexander Operation.** Some points in the technique of the Alexander operation, Hayd, H. E., 159.

**Allen, D. P.** Hysterectomy for removal of large uterine myomata by the combined vaginal and abdominal methods, 485, 493.

**Amputations.** Major amputations at the Massachusetts General Hospital, Scudder, C. L., 609.

**Anemia,** Page, R. M. C., 158.

**Animals.** The senate bill for prevention of cruelty to animals in District of Columbia, 22.

**Antitoxin.** Use of antitoxin in two cases of puerperal sepsis, Clark, L. B., 27; for what period of time can immunity from diphtheria be conferred by a single injection of antitoxin, the dosage, Morrill, F. G., 193; the toxin and antitoxin of tetanus, Smith, T., 292, 303; two cases of tetanus treated with antitoxin, Lund, F. B., 295, 303; a case of septicemia (gonotoxemia?) treated with the streptococcus antitoxin, recovery, Vietor, A. C., 297, 303; the use of animal toxins in the treatment of inoperable malignant tumors, Fowler, G. R., 450; treatment of pneumonia, Smith, A. H., 500.

**Appendicitis.** Four cases of appendicitis in patients of advanced age, Irish, J. C., 12; purulent general peritonitis from carcinoma of the head of the appendix, Wright, J. H., 150; a year's work in appendicitis, Mynter, H., 184; lessons from six cases of appendicitis, Jones, W. B., 184; a case of appendicitis in which the appendix became permanently soldered to the bladder, producing a urinary fistula, Keen, W., 450.

**Army.** The dum-dum bullet, 309; the medical service of the army, 453; physical examination for the volunteer service, 454; medical supplies of the volunteers, 577; soldiers' food; camp life: its benefits and hardships, 622.

**Asepsis.** Some observations upon improved aseptic technique, Brewer, G. E., 399.

**Bacteriology.** The atmospheric transmission of bacterial infection, 383; bacillus icteroides (Sanarelli) and bacillus x (Sternberg), Sternberg, G. M., 497; comparative study of bovine tubercle bacilli and of human (sputum), Smith, T., 497; pseudo-tuberculosis hominis streptotricha, Fiexner, S., 497; an experimental study of the direct inoculation of the spleen with micro-organisms and a contribution to our knowledge of the importance of the lesion of a body tissue for the settlement and development of bacteria within it, Meltzer, S. J., and Cheesman, T. M., 497; bacteriology of cheese, Vaughan, V. C., and McClymonds, J. T., 501; constant presence of the pneumococcus on the surface of the tonsil, 555.

**Bailey, P.** Unilateral atrophy of the brain, 17.

**Baker, W. H.** Myomectomy for fibroids, 180; a case of undeveloped uterus, with congenital absence of the left ovary, 374; hematoma of the ovary, 546.

**Bangs, L. S.** Management of hypertrophy of the prostate gland and its complications, 185.

**Bartlett, E. J.** The arsenic in the Marsh case, 487.

**Berlin** letters, 214, 410, 626.

**Bibliography.** American text-book of applied therapeutics, 209; American year-book of medicine and surgery, 209; Army, report of the Surgeon-General of the, 67; Bailey, P., accident and injury; their relations to diseases of the nervous system, 621; Ball, M. V., essentials of bacteriology, 90; Bashore, H. B., outlines of rural hygiene, 622; Beard, G. M., sexual neurasthenia, its hygiene, causes, symptoms and treatment, 306; Boston City Hospital, annual report, 43; Burnett, J. C., organ diseases of women, notably enlargements and displacements of the uterus, and sterility, 282; Byford, H. T., manual of gynecology, 161; Coplin, W. M. L., manual of pathology, 90; Currier, A. F., the menopause, 186; Dana, C. L., text-book of nervous diseases, 281; Doin, O., deuxième session de l'association française d'urologie, 281; Duhring, L. A., cutaneous medicine; a systematic treatise on the diseases of the skin, 306; Egbert, S., Egbert's hygiene and sanitation, 597; Fox, G. H., skin diseases of children, 306; Harvard College, annual report, 1896-97, 187; Hemmeter, J. C., diseases of the stomach, 381; Herman, G. E., diseases of women, 357; Holmes, E. W., outlines of anatomy, 405; Illoway, H., constipation in adults and children, 525; international medical annual and practitioners' index, 405; Jakob, C., atlas of methods of clinical investigation, 597; Kellogg, T. H., a text-book on mental diseases, 209; King, A. F. A., a manual of obstetrics, 282; Landolt and Gygax, vade mecum of ophthalmological therapeutics, 478; Lehmann, K. B., atlas and essentials of bacteriology, 65; Lewers, A. H. N., a practical text-book of the diseases of women, 549; Linn, T., the health resorts of Europe, 525; Loomis, A. L., and Thompson, W. G., a system of practical medicine by American authors, 549; Loumeau, E., chirurgie des voies urinaires, 281; medical annual and practitioners' index, 549; Moore, J. E., orthopedic surgery, 305; Newsholme, A., epidemic diphtheria, 332; New York, State Board of Charities on dispensaries, 115; Paget, C. E., wasted records of disease, 306; Park, R., an epitome of the history of medicine, 161; Penrose, C. B., a text-book of diseases of women, 162; Phelps, C., traumatic injuries of the brain and its membranes, with a special study of pistol-shot wounds of the head in their medico-legal and surgical relations, 210; Sajous, C. E., annual and analytical cyclopedia of practical medicine, 383; Schaeffer, O., atlas and essentials of gynecology, 210; Shaffer, N. M., brief essays on orthopedic surgery, 597; Shoemaker, J. V., diseases of the skin, 306; Smith, N., spinal caries, 186; Stedman, T. L., twentieth century practice, xiii, 597; Stevenson, W. F., wounds in war: the mechanism of their production and their treatment, 332; Sutton, J. B., the diseases of women, a hand-book for students and practitioners, 282; Taylor, A. S., a manual of medical jurisprudence, 162; Thayer, W. S., lectures on the malarial fevers, 597; Thompson, J. H., the diseases and injuries of the conjunctiva, especially the so-called "granulated lids," 597; Warthin, A. S., practical pathology for students and physicians, 161; Webster, J. C., diseases of women, 383; Whitman, W., the wound dresser, 209; Yearsley, M., injuries and diseases of the ear, 162; Ziegler, E., a text-book of special pathological anatomy, 114.

**Bile ducts.** Remedial measures in obstruction of the common bile ducts, Gaston, J. M., 428.

**Biography.** Aiken, E. W., 388; Amory, C., 189; Conklin, J. T., 286; Couch, J. D., 288; Coy, E. C., 24; Dillon, P., 624; Dodge, E. S., 364; Dolliver, G. C., 24, 45; Freeman, G. E., 580; Frost, G. M., 628; Gibbs, J. B., 602; Gilbert, P. C., 601; Hart, E., 46; Heuel, T., 45; Hill, L. G., 364; Hodgkins, D. W., 412; Hough, G. T., 312; Howes, W. R., 144; Humphreys, G. H., 386; Jackson, E., 628; Kelsey, C. B., 212; Lintner, J. A., 456; Little, G. S., 336; Manning, A., 529; Maynard, J. P., 216, 237; Mease, J. H., 262; O'Dwyer, J., 46; Parvin, T., 144; Pean, J. E., 120; Pierce, J. G., 364; Playfair, L., 580; Quain, R., 288; Quimby, I. N., 456; Ricker, C. H., 288; Robb, W. H., 70; Sawyer, C., 212; Seguin, E. C., 191; Sherow, E. J., 45; Stedman, J., 484, 506, 626; Stevens, C., 216; Stevens, J. J., 237; Stricker, 385; Sullivan, T., 624; Thayer, W. H., 94; Truax, J. G., 190; Van Keuren, C., 93; Wheaton, R. A., 191; Wilkinson, J., 190; Yale, J., 216; Young, A., 144; Zaccharin, 46.

**Blake, C. J.** Mastoid operations, 281.

**Boland, E. S.** Glioma of the brain, 325.

**Bone.** Remarks upon the proper surgical treatment of tuberculous bone disease, 78, 85; the surgical aspect of the pathology of tuberculosis of the bones and joints, Nichols, E. H., 81, 85; the conservative treatment of tubercular joint disease, Brackett, E. G., 83, 85; specimens of bone, McGrath, 85.

**Booth, J. A.** Toxic tremor and hysteria in a male, 14.

**Boston City Hospital** outing, 601.

**Bowen, J. T.** Report on dermatology, 252.

**Boyd, F.** X-ray dermatitis; suit for damages, 166.

**Brackett, E. G.** The conservative treatment of tubercular joint disease, 83, 85.

**Bradford, E. H., and Brackett, E. G.** Orthopedic report, 614.

**Brain.** Enormous hydrocephalus, Peterson, F., 15; abscess of the brain, Peterson, F., 16; atrophy of the brain, Peterson, F., 16;

hemiatrophy of the brain, Peterson, F., 16; unilateral atrophy of the brain, Bailey, P., 17.
**Breast.** Operative treatment of carcinoma of the breast, Halstead, W. S., 427.
**Breck, S.** The Boston floating hospital, 603, 627.
**Brewer, G. E.** Some observations upon improved aseptic technique, 399.
**Brigham, C. B.** Case of removal of the entire stomach for carcinoma, successful esophago-duodenostomy, recovery, 415.
**Brookline.** The prevention of tuberculosis in Brookline, Mass., 141.
**Brown, M. L.** A new instrument for removing coins and similar shaped foreign bodies when lodged in the esophagus, 523.
**Bruce.** Rupture of aortic aneurism into the bronchus, 338.
**Bullard, W. N.** Increase of intradural pressure in head injuries, 271, 278.
**Burrage, W. L.** Some results of the postural method of draining the peritoneal cavity after abdominal operations, 52, 64; uterine cutting forceps, 207, 255, 571.
**Burrell, H. L., and Cushing, H. W.** Recent progress in surgery, 446, 469, 520, 589.
**Burt.** Pathological specimens, 351.
**Butters** homicide affair, Titcomb, G. E., 395.
**Cabot, A. T.** Remarks upon the proper surgical treatment of tuberculous bone disease, 79, 85; observations on malignant adenoma of the rectum, 543, 547.
**Cabot, R. C.** Obliterative pericarditis a cause of hepatic enlargement and ascites, with report of a case, 463, 471.
**Cæsarean** section, Erb, T. C., 346, 355; two cases of Cæsarean section, Washburn, G. H., 516, 524; Cæsarean section *vs.* symphyseotomy, Washburn, G. H., 611, 620.
**Caffery** bill, 138.
**Calculus.** Large renal calculus, Paddock, F. K., 348.
**California.** Climate of southern California, Tisdale, W. M., 142, 166.
**Call, E. L.** Fibroid tumors as a complication of pregnancy and labor, 564, 574.
**Cancer.** An inquiry into the etiology of cancer, with some reference to the latest investigations of the Italian pathologists, Park, R., 427.
**Canedy, F. J.** The homicide of Mrs. Hattie E. McCloud, 9.
**Carbolic acid.** A case of carbolic-acid poisoning, Holyoke, F., 394.
**Carson, N. B.** Cerebellar tumor, 429.
**Catgut.** The sterilization of catgut, Cobb, F., 275.
**Channing, W.** Report on physical training in the Boston public schools, 25, 38; medical expert testimony in the Kelley murder trial, 366, 379.
**Chaplin, H. W.** Address before the Massachusetts Medical Society, 570.
**Chemistry.** Physiological chemistry and its relation to medical chemistry, 332; recent progress in physiological chemistry, Hewes, H. F., 348, 372.
**Chenery, E.** A first-class fraud, 339.
**Cheney, F. C.** Eye-strain, 153.
**Children.** Infantile scurvy, Morse, J. L., 38; on vulvo-vaginitis in children, Storer, M., 49, 62; observations on meningitis in infants and children, Wentworth, A. H., 241, 268, 289, 318; the American Pediatric Society's collective investigation on infantile scurvy in North America, Griffith, J. P. C., Jennings, C. G., and Morse, J. L. 605.
**Circulatory System.** Heart complications in diphtheria, Hibbard, C. M., 73, 100; anemia, Page, R. M. C., 158; report on progress in thoracic diseases, Sears, G. G., 326; rupture of aortic aneurism into the bronchus, Bruce, 338; pulsating arteries, Farlow, J. W., 374; obliterative pericarditis a cause of hepatic enlargement and ascites, with report of a case, Cabot, R. C., 463, 471; some observations on cardiac syphilis, Adler, I., 476; paralysis of the left recurrent laryngeal nerve in mitral stenosis, Osler, W., 498; a case of chronic infective endocarditis, with streptococci found in the blood before death, treated by antistreptococcus serum and experiments on the effects of injections of serum and of antitoxins upon the kidneys, Thompson, W. H., 501.
**Clark, J. B., and Harrington, F. B.** Early diagnosis of a case of cancer of the larynx, removal of growth by thyrotomy, recovery, 107, 113.
**Clark, J. P.** Complete congenital occlusion of the posterior nares, report of a case, 171, 183.
**Clark, L. B.** Use of antitoxin in two cases of puerperal sepsis, 27.
**Classification.** Progress in adoption of uniform systems of classification of diseases and causes of death, 410.
**Cobb, F.** The sterilization of catgut, 275.
**Cocaine** habit from snuff, Gilbert, D. D., 119.
**Coe, H. C.** Fibroids complicating pregnancy, 403.
**Coffin, R. A.** A differential diagnosis of empyema of the accessory cavities of the nose by internal examination, 274.
**Conant, W. M.** Two twisted pedicled ovarian cysts with complications, 592.
**Consumption,** an indoor disease, Abbott, S. W., 1; what shall the State and county do for the consumptive? Pryor, W. H., 158.
**Consultation,** 310.
**Contagion.** How contagious diseases are disseminated, 286.
**Contagium vivum,** 504.
**Contrecoup,** its relation to injuries of the head, Hartwell, B. H., 10.
**Coolidge, A., Jr.** Changes in the turbinated bones in connection with deformities of the septum, 540, 547.
**Coues, W. P.** Two additional cases of diphtheria of the vulva, 445.
**Councilman, W. T.** Cerebro-spinal meningitis, 145; acute interstitial nephritis, 477; the relation of pathology to medicine, 557, 581.
**Courtney, J. W.** The clinical and pathological report of a case of fracture of the spine in the cervical region, with some statistics on fractures in this region, 29; 86.
**Craigin, E. B.** The present status of vaginal operations for disease of the pelvic organs, 160.
**Crothers, T. D.** The treatment of delirium tremens, 186.
**Crowley, J. M.** Omental hernia of the left labium majus, operation, recovery, 612.
**Cuban** campaign, heroism of medical men in the, 625.
**Cumston, C. G.** Treatment for tertiary syphilitic ulcers, 310; transfuser for injecting artificial serum, 572; remarks on the pathology of epithelioma of the uterus, with reference to operative interference, 584, 593.
**Cushing, H. W.** Traumatic rupture of the pancreas, formation of hemorrhagic cyst, operation, followed by a pancreatic fistula and recovery, 429.
**Cutaneous System.** Dermatology in London, Macdonald, W. G., 46; report on dermatology, Bowen, J. T., 252; changes in the skin and viscera caused by the x-rays, 259.
**Cystinuria.** A case of cystin calculus in the male bladder, Thorndike, P., 367, 378; remarks on cystinuria, examination of the urine and calculus, Ogden, J. B., 367, 378.
**Davenport, F. H.** Pathology and treatment of dysmenorrhea associated with anteflexion of the uterus, 514, 524.
**Delore.** Traumatic peritonitis due to contusion of the abdomen without injury to the viscera, 214.
**Denny, F. P.** The clinical course of pneumonias in which there is an infection with streptococci, 341.
**Dentistry.** South African dentists, 409.
**Devine, W. H.** A case of dislocation of the lower end of the tibia forwards, 84.
**Digestive System.** Four cases of appendicitis in patients of advanced age, Irish, J. C., 12; living without a stomach, 18; a case of transposition of the viscera, Vickery, H. F., 34; purulent general peritonitis from carcinoma of the head of the appendix, Wright, J. H., 150; cancerous stenosis of the pylorus, Liebmann, G., 155; sarcoma of the mesentery of the cecum, 177; enteroptosis, 211; traumatic peritonitis due to contusions of the abdomen without injury to the viscera, Delore, 214; gastroptosis, Kuttner and Dyer, 338; little hammers for suture of the bile ducts, 358; ruptures of the abdominal viscera, 386; hyperacidity of the stomach and its treatment, Joslin, E. P., 389; the testimony of gastrodiaphany as to the position of the stomach, 405; case of removal of the entire stomach for carcinoma, successful esophago-duodenostomy, recovery, Brigham, C. B., 415; congenital stenosis of the pylorus in infants, Meltzer, S. J., 475; gastric carcinoma associated with hyperchlorhydria, Stewart, D. D., 475; gastric syphilis, with the report of a case of perforating syphilitic ulcer of the stomach, Flexner, S., 476; observations on malignant adenoma of the rectum, Cabot, A. T., 543, 547.
**Diphtheria.** Heart complications in diphtheria, Hibbard, C. M., 73, 100; acute degenerations of the nervous system in diphtheria, Thomas, J. J., 76, 97, 123; two additional cases of diphtheria of the vulva, Coues, W. P., 445; the effects of freezing on diphtheria antitoxins, Ernst, H. C., 501.
**Dislocation.** A case of dislocation of the lower end of the tibia forwards, Devine, W. H., 84; congenital dislocation of the shoulder backwards, with a report of seven cases and an operation for its relief, Phelps, A. M., 185.
**Dispensaries.** New York State Board of Charities on dispensaries, 115.
**Drayton, H. S.** Intra-tracheal injections for diseases of the bronchial-tubes and lungs, 186.
**Dum-Dum Bullet,** 309.
**Dunbar, F. A.** The Cambridge milk-supply, 437.
**Dwight, E. W.** Progress in legal medicine, 276.
**Ear Manifestations** in general disease, Phillips, W. C., 157; mastoid operations, Blake, C. J., 281.
**Edebohls, G. M.** The other kidney in contemplated nephrectomy, 160, 387.
**Editorials.** Living without a stomach, 18; newer contributions to our knowledge of the action of iron, 19; the report of the medical officer of the Local Government Board (England) for 1895-96, 42; the annual report of the Boston City Hospital, 43; medical registration in Massachusetts, 66; report of the Surgeon-General of the army, 67; the "Practitioner" and the medical profession in the United States, 68; the treatment of obesity, 91; pediculosis in the public schools, 92; the influence of pathology upon therapeutics, 114; New York State Board of Charities on dispensaries, 115; the Caffery bill, 138; the relation between the nose and the sexual apparatus, 138; the bill to restrain the New York City Board of Health, 139; imagination, 162; State monopoly of the manufacture of alcoholic beverages in France, 163; annual report of Harvard College, 1896-97, 187; glycerinated vaccine lymph, 188; the Spooner bill and the New York Academy of Medicine, 188; the last public health supplement of the Local Government Board, 210; enteroptosis, 211; liberty, license or law, 234; report upon the after-care of the insane, 258; changes in the skin and viscera caused by the x-rays, 259; the waste and destruction of wholesome meat, 282; on the decline in the death-rate from child-birth, 283; the significance of the flagella in the human organism, 307; physiological chemistry and its relation to medical practice, 332; the accident neuroses of the war, 357; little hammers for suture of the bile ducts, 358; Maine views on the antivivisection bill, 359; the atmospheric transmission of bacterial infection, 383; the testimony of gastrodiaphany as to the position of the stomach, 405; epidemic cerebro-spinal meningitis, 430; the war and modern surgery, 431; the medical service of the army, 453; physical examination for the volunteer service, 454; care of the wounded in action in battle-ships, 478; a virus without micro-organisms, 479; the report of the Royal Commission upon tuberculosis, 1898, 502; contagium vivum, 504; the recent movement against abuse of medical charity in New York, 525; the significance of inflammation, 527; medical meetings, 550; results of prolonged insomnia, 551; sanitary problems of a Cuban invasion, 552; exeunt medicinæ doctores, 575; President Eliot's speech at the Massachusetts Medical Society, 598; the therapeutics of literature, 599; a Massachusetts hospital ship, 600; soldiers' food; camp life: its benefits and hardships, 622.
**Education.** Exeunt medicinæ doctores, 575; beware of the osteopathic circular, Egan, J. A., 579.
**Electricity.** A new device for adapting the incandescent electric current to therapeutic purposes, Rockwell, A. D., 17.
**Eliot, C. W.** Address before the Massachusetts Medical Society, 570; address at the Massachusetts Medical Society, 598.
**Elsner, H. L.** The vagaries and wanderings of gall-stones, with clinical reports, 159.
**Enteroptosis,** 211.
**Erb, T. C.** Cæsarean section, 346, 355.
**Ernst, H. C.** The effects of freezing on diphtheria antitoxins, 501.
**Ether Drinking,** 409.
**Expert Medical Testimony,** Ransom, J. B., 158.
**Eye.** Recent progress in ophthalmology, Standish, M., and Hall,

W. D., 12, 34, 58; eye-strain, Cheney, F. C., 153; the report of a case of unusual contraction of the visual field and disorder of the color sense following an injury, Van Allen, T. F. C., 158; iridectomy in excluded and occluded pupil during active inflammation, Jack, E. E., 490.
**Face.** Wry-neck and asymmetry of face, Hammond, G. M., 15.
**Farlow, J. W.** On some forms of adenoid disease which are often overlooked, and on conditions which may simulate adenoid disease, 365, 375; pulsating arteries, 374; clinical catarrhal process following scarlatina, 374.
**Fat.** The experimental production of fat necrosis, Williams, H. U., 342.
**Fibula.** Excision of the fibula for sarcoma, Lloyd, S., 185.
**Fillebrown, T.** Some modifications of the operation for closing congenital fissures of the palate, 105, 113.
**Fisher, E. D.** Paralysis, prognosis and treatment, 159.
**Fishes.** Tuberculosis in fishes, 409.
**Fitz, R. H.** A case of myxedema and albumosuria; treatment with thyroid extract, death, 478.
**Flagella.** The significance of the flagella in human organism, 307.
**Flexner, S.** Gastric syphilis, with the report of a case of perforating syphilitic ulcer of the stomach, 476; pseudo-tuberculosis hominis streptotricha, 497.
**Floating Hospital.** The Boston floating hospital, Breck, S., 603, 627.
**Florence.** Cholin, the active principle in Florence's test for semen, Whitney, W. F., 397.
**Folk-lore.** Bits of medical folk-lore, Moorehouse, J. G., 201.
**Folsom, C. F.** Limited responsibility, 387.
**Food.** The waste and destruction of wholesome meat, 282; the Cambridge milk-supply, Dunbar, F. A., 437.
**Foot-ball.** Accident neuroses and foot-ball playing, Prince, M., 392.
**Foramen** of Winslow, 602.
**Ford, W. E.** Remote consequences of excessive uterine hemorrhage, 160.
**Foundlings.** How Russia cares for her foundlings, Hildreth, J. L., 509, 533, 562.
**Fowler, G. R.** The use of animal toxins in the treatment of inoperable malignant tumors, 450.
**Fracture.** A clinical and pathological report of a case of fracture of the spine in the cervical region, with some statistics on fractures in this region, Courtney, J. W., 86; the ambulatory treatment of fractures, Scudder, C. L., 102; scientific splinting, Tracy, E. A., 110; comminuted fracture of each patella, Scudder, C. L., 231.
**Fraenkel.** Pulmonary tuberculosis and tabes combined, 15.
**Fraud.** A first-class fraud, Chenery, E., 339.
**Freaks.** Two curious "freaks," 237.
**Freeborn, G. C.** Pathology of uterine fibroids, 402.
**Gærtner.** A consideration of the Professor Gærtner-mother-milk, Morse, J. L., 586.
**Gage, J. A.** Some considerations of tuberculosis, 4.
**Gall-stones.** The vagaries and wanderings of gall-stones, with clinical reports, Elsner, H. L., 159.
**Garceau, E.** Pathological specimens, 62; cystitis in young girls, with a report of three nephrectomies, 258; an instrument for facilitating catheterization of the ureters, 471; diagnosis of puerperal septicemia, with cases, 567, 573.
**Gaston, J. M.** Remedial measures in obstruction of the common bile-ducts, 428.
**Gastroptosis.** Kuttner and Dyer, 338.
**Generative System.** On vulvo-vaginitis in children, Storer, M., 49, 62; some results of the postural method of draining the peritoneal cavity after abdominal operations, Burrage, W. L., 52, 64; report on genito-urinary surgery, Watson, F. S., 57; the relation between the nose and the sexual apparatus, 138; some points in the technique of the Alexander operation, Hayd, H. E., 159; the present status of vaginal operations for disease of the pelvic organs, Cragin, E. B., 160; remote consequences of excessive uterine hemorrhage, Ford, W. E., 160; foreign bodies in the vagina, 166; myomectomy for fibroids, Baker, W. H., 180; a case of restoration of the female urethra and closure of the bladder after extensive laceration, Richardson, M. H., 202, 307; the vagina a "tool chest," Manton, W. P., 215; report on progress in gynecology, Reynolds, E., 300; report of four cases of hysterectomy for fibroids, Palmer, S. E., 343, 352; a case of undeveloped uterus, with congenital absence of the left ovary, Baker, W. H., 374; pathology of uterine fibroids, Freeborn, G. C., 402; fibroids complicating pregnancy, Coe, H. C., 403; surgical treatment of uterine fibroids, Polk, W. M., 403; two additional cases of diphtheria of the vulva, Coues, W. P., 445; hysterectomy for removal of large uterine myomata by the combined vaginal and abdominal methods, Allen, D. P., 485, 492; pathology and treatment of dysmenorrhea associated with anteflexion of the uterus, Davenport, F. H., 514, 524; hematoma of the ovary, Baker, W. H., 546; remarks on the pathology of epithelioma of the uterus, with reference to operative interference, Cumston, C. G., 584, 593; two twisted pedicled ovarian cysts with complications, Conant, W. M., 592; omental hernia of the left labium majus, operation, recovery, Crowley, J. M., 612.
**Gihon, A. L.** Report of Rush monument fund, 593.
**Gilbert, D. D.** The cocaine habit from snuff, 119.
**Goffe, J. R.** The anatomy and function of the pelvic floor in women, and the operation for repair of injuries due to parturition, 160.
**Goldthwait, J. E.** Apparatus for applying dry heat, 113.
**Goodale, J. L.** On the treatment of certain forms of cervical lymphadenitis by the introduction of medicinal substances into the crypts of the faucial tonsils, 465, 473.
**Greene, E. M.** Pediculosis in Boston's public schools, 70.
**Greenwood, A.** A review of three years' work as a board-of-health physician, 249.
**Griffith, J. P. C., Jennings, C. G., and Morse, J. L.** The American Pediatric Society's collective investigation on infantile scurvy in North America, 605.
**Gynecology.** Report on progress in gynecology, Reynolds, E., 300.
**Halsted, W. S.** Operative treatment of carcinoma of the breast, 427.
**Hammond, G. M.** Wry-neck and asymmetry of face, 15.
**Hankin, E. H.** The vitality of the plague bacillus, 213.
**Harding, G. F.** Pediculosis, 95.
**Hare-lip.** The medical and surgical treatment of hare-lip, Mumford, J. G., 198.
**Hartwell, B. H.** Contrecoup; its relation to injuries of the head, 10.
**Hayd, H. E.** Some points in the technique of the Alexander operation, 159.
**Healey, J. J.** Two cases of spontaneous rupture of the uterus during labor, 369.
**Health Resorts** and waters for the anemic, Weber, H., 191.
**Heat.** Apparatus for applying dry heat, Goldthwait, J. E., 113.
**Heroism** of medical men in the Cuban campaign, 625.
**Herrick, C. B.** The railway surgeon and his work, 158.
**Hewes, H. F.** Recent progress in physiological chemistry, 348, 372.
**Hibbard, C. M.** Heart complications in diphtheria, 73, 100.
**Hildreth, J. L.** How Russia cares for her foundlings, 509, 533, 562.
**Hingston, W.** Address before the Massachusetts Medical Society, 570.
**Hirsch, W.** Tic convulsif, 15; a case of amyotrophic lateral sclerosis, supplementary report, 16.
**Hogner, R.** Velander's new method of administering unguentum hydrargyri, 299, 303.
**Holyoke, F.** A case of carbolic-acid poisoning, 394.
**Homans, J.** Enormously dilated intra-peritoneal lymph vessels, 230; lost and found: a sponge in a queer place, 435; two cases of tetanus, both treated with anti-tetanic serum, both fatal, 519.
**Hospital Abuse.** Some remarks upon hospital abuse, Shattuck, F. C., 413.
**Hospitals.** The annual report of the Boston City Hospital, 43.
**Hospitals** and sanatoria for consumption abroad, Otis, E. O., 265, 313, 329.
**Hospital Ship.** A Massachusetts hospital ship, 600.
**Hunt Memorial Building** of the Hartford Medical Society, 165.
**Hydrocephalus.** Enormous hydrocephalus, Peterson, F., 15.
**Hygiene, Health and Boards of Health.** The report of the medical officer of the Local Government Board (England) for 1895-96, 42; the Caffery bill, 138; the bill to restrain the New York City Board of Health, 139; the Spooner bill and the New York Academy of Medicine, 188; the last public health supplement of the Local Government Board, 210; a review of three years' work as a board-of-health physician, Greenwood, A., 249; progress in public hygiene, Abbott, S. W., 370, 397; sanitary problems of a Cuban invasion, 552.
**Imagination,** 162.
**Inflammation.** The significance of inflammation, 527.
**Insanity.** The past, present and prospective methods of treatment of the insane in the State of New York, Wise, P. M., 184; report upon the after-care of the insane, 258; American Social Science Association, Sanborn, F. B., 287; the after-care of the insane, Stedman, H. R., 339.
**Insects.** Insect cookery, 337.
**Insomnia.** Results of prolonged insomnia, 551.
**Instruments and Apparatus.** A new head-support for caries of the spine, Young, E. B., 60; apparatus for applying dry heat, Goldthwait, J. E., 113; uterine cutting forceps, Burrage, W. L., 207, 255, 571; the sterilization of catgut, Cobb, F., 275; an instrument for facilitating catheterization of the ureters, Garceau, E., 471; Remington litter carrier, 481; a separable tube for packing gauze into the abdominal and other deep sinuses, Morrison, W. A., 492; a combined needle forceps and scissors, Thornton, J. B., 523; a new instrument for removing coins and similar shaped foreign bodies when lodged in the esophagus, Brown, M. L., 523; transfuser for injecting artificial serum, Cumston, C. G., 572.
**Irish, J. C.** Four instances of appendicitis in patients of advanced age, 12.
**Iron.** Newer contributions to our knowledge of the action of iron, 19.
**Jack, E. E.** Iridectomy in excluded and occluded pupil during active inflammation, 490.
**Jackson, H.** Two cases of abscess of the liver, 154.
**Janeway, E. G.** Danger of error in diagnosis between chronic syphilitic fever and tuberculosis, 476; two attacks of temporary hemiplegia occurring in the same individual as the result of the use of peroxide of hydrogen in a sacculuted empyema (pleural), 498.
**Johnson, F. W.** The preservation of pathological specimens, 572; calcareous change in an interstitial fibroid, 572; a case of extra-uterine pregnancy, 613, 620.
**Joints.** The surgical aspect of the pathology of tuberculosis of the bones and joints, Nichols, E. H., 81, 85; the conservative treatment of tubercular joint disease, Brackett, E. G., 83, 85.
**Jones, W. B.** Lessons from six cases of appendicitis, 184.
**Joslin, E. P.** Hyperacidity of the stomach and its treatment, 389.
**Keen, W. W.** A case of appendicitis in which the appendix became permanently soldered to the bladder, producing a urinary fistula, 450.
**Ketch, S.** Disease and deformity of the tibia, 36.
**Keyes, E. L.** Stone associated with hypertrophy of the prostate, 185.
**Klebs, A. C.** The diagnostic and therapeutic value of tuberculin and its derivatives, 121, 132.
**Knapp, P. C.** Recent progress in neurology, 111, 130.
**Knight, F. I.** Anatomical specimens, 38.
**Krypton,** a new element of the atmosphere, Ramsay, W., 625.
**Kuttner and Dyer.** Gastroptosis, 338.
**Larynx.** Early diagnosis of a case of cancer of the larynx, removal of growth by thyrotomy, recovery, Clark, J. P., and Harrington, F. B., 107, 113; cases of acute non-diphtheritic inflammation of the larynx requiring the prolonged retention of the intubation tube, Roe, J. O., 158.
**Legal Medicine.** The homicide of Mrs. Hattie E. McCloud, Canedy, F. J., 9; contrecoup, its relation to diseases of the head, Hartwell, B. H., 10; the murder of William Terriss, 118; expert medical testimony, Ransom, J. B., 158; x-ray dermatitis, a suit for damages, Boyd, F., 166; progress in legal medicine, Dwight, E. W., 276; medical expert testimony in the Kelley murder trial, Channing, W., 366, 379; limited responsibility, Folsom, C. F., 387; the Butters homicide affair, Titcomb, G. E., 395; the arsenic in the Marsh case, Bartlett, E. J., 487.
**Leyden, Professor von.** Non-medicinal methods of treatment, 530.

**Liberty,** license or law, 234.
**Liebmann, G.** Cancerous stenosis of the pylorus, 155.
**Lip.** Modern operation for cancer of the lip, Warren, J. C., 177.
**Liquor.** Spurious or adulterated liquors, 190.
**Liver.** Two cases of abscess of the liver, Jackson, H., 154; a study of thirty-seven fatal cases of cirrhosis of the liver, Morse, J. L., 225; obliterative pericarditis a cause of hepatic enlargement and ascites, with report of a case, Cabot, R. C., 463, 471.
**Lloyd, S.** Excision of the fibula for sarcoma, 185.
**Lord, S. A.** Post-operative neurasthenia, 588.
**Lovett, R. W.** The forcible correction of the deformity in Pott's disease, 228; pathology in its relation to orthopedic surgery, 460.
**Lund, F. B.** Two cases of tetanus treated with antitoxin, 295, 303.
**Lymph vessels.** Enormously dilated intra-peritoneal lymph vessels, Homans, J., 230.
**Macdonald, W. G.** Dermatology in London, 46; venereal diseases in Paris, 506, 530.
**McGrath.** Specimens of bone, 85.
**Madura Foot.** Report of a case, Wright, J. H., 500.
**Mailhouse, M.** A case of myasthenia pseudo paralytica gravis (Jolly) or asthenic bulbar paralysis (Strümpell), 439.
**Manton, W. P.** The vagina a "tool chest," 215.
**Marsh Case.** The arsenic in the Marsh case, Bartlett, E. J., 487.
**Massachusetts General Hospital.** Clinical meetings of the Medical Board, 145, 177.
**Materia Medica and Therapeutics.** A new device for adapting the incandescent electric current for therapeutic purposes, Rockwell, A. D., 17; new contributions to our knowledge of the action of iron, 19; use of antitoxin in two cases of puerperal sepsis, Clark, L. B., 27; the influence of pathology upon therapeutics, 114; the diagnostic and therapeutic value of tuberculin and its derivatives, Klebs, A. C., 121, 132; a case of antitoxin poisoning, Morse, J. L., 157; the cold water treatment of typhoid fever in private practice, Wheeler, J. T., 159; Velander's method of administering unguentum hydrargyri, Hogner, R., 299, 303.
**Meat.** The waste and destruction of wholesome meat, 282.
**Meetings.** Medical meetings, 550.
**Meigs, J. V.** Three cases of transverse fracture of the patella treated by wiring; recovery, with excellent result in each case, 33.
**Meltzer, S. J.** Congenital stenosis of the pylorus in infants, 475.
**Meltzer, S. J., and Cheesman, T. M.** An experimental study of the direct inoculation of the spleen with micro-organisms, and a contribution to our knowledge of the importance of the lesion of a body tissue for the settlement and development of bacteria within it, 497.
**Meningitis.** Epidemic cerebro-spinal meningitis, 430.
**Metzger, B.** Intravenous infusion in a case of uremia, 491.
**Meyer, W.** Bottini's galvano-caustic radical treatment and the palliative treatment for hypertrophy of the prostate, 185.
**Microbe.** A fictitious microbe, 309.
**Milk.** The Cambridge milk supply, Dunbar, F. A., 437; a consideration of the Professor Gærtner-mother-milk, Morse, J. L., 586.
**Mind.** The past, present and prospective methods of treatment of insanity in the State of New York, 184; report upon the after-care of the insane, 258; American Social Science Association, Sanborn, F. B., 287; the after-care of the insane, Stedman, H. R., 339.
**Monks, G. H., and Lund, F. B.** Two cases of rupture of the viscera, 127.
**Moore, J. E.** Hysteria from a surgical standpoint, 452.
**Moorehouse, G. W.** Bits of medical folk-lore, 201.
**Morgue** in Paris, 458, 482.
**Morrill, F. G.** For what period of time can immunity be conferred by a single injection of antitoxin? the dosage, 193.
**Morrison, W. A.** A separable tube for packing gauze into abdominal and other deep sinuses, 492.
**Morse, J. L.** Infantile scurvy, 38; a case of antitoxin poisoning, 157; a study of thirty-seven fatal cases of cirrhosis of the liver, 225; a consideration of the Professor Gærtner-mother-milk, 586.
**Mumford, J. G.** Medical and surgical treatment of hare-lip, 198.
**Murphy, J. B.** Surgery of the lung, 619.
**Musser, J. H.** An essential of the art of medicine, 617.
**Mynter, H.** A year's work in appendicitis, 184.
**Nelson, C. D.** Pulmonary tuberculosis treated with Koch's tuberculin, 588.
**Nervous System.** Toxic tremor and hysteria in a male, Booth, J. A., 14; neuritis following an infected vaccination, Noyes, W. B., 15; pulmonary tuberculosis and tabes combined, Frænkel, 15; tic convulsif, Hirsch, W., 15; wry neck and asymmetry of face, Hammond, G. M., 15; enormous hydrocephalus, Peterson, F., 15; abscess of the brain, Peterson, F., 16; a case of amyotrophic lateral sclerosis, supplementary report, Hirsch, W., 16; unilateral atrophy of the brain, Bailey, P., 17; the clinical and pathological report of a case of fracture of the spine in the cervical region, with some statistics on fractures in this region, Courtney, J. W., 29, 86; a case of asthenic bulbar paralysis, Wheaton, J. L., Jr., 54; acute degeneration of the nervous system in diphtheria, Thomas, J. J., 76, 97, 123; recent progress in neurology, Knapp, P. C., 111, 130; cerebro-spinal meningitis, Councilman, W. T., 145; paralysis, prognosis and treatment, Fisher, E. D., 159; observations on meningitis in infants and children, Wentworth, A. H., 241, 268, 289, 318; a tramp with progressive muscular atrophy, Targowla, 263; increase of intradural pressure in head injuries, Bullard, W. N., 271, 278; the toxin and antitoxin of tetanus, Smith, T., 293, 303; two cases of tetanus treated with antitoxin, Lund, F. B., 295, 303; glioma of the brain, Boland, E. S., 325; accident neuroses and foot-ball playing, Prince, M., 392; cerebellar tumor, Carson, N. B., 429; a case of myasthenia pseudo paralytica gravis (Jolly) or asthenic bulbar paralysis (Strümpell), Mailhouse, M., 439; gunshot injuries of the spine, with report of a case, Prewitt, T. F., 450; hysteria from a surgical standpoint, Moore, J. E., 452; paralysis of the left recurrent laryngeal nerve in mitral stenosis, Osler, W., 498; two attacks of temporary hemiplegia occurring in the same individual as the result of the use of peroxide of hydrogen in a sacculated empyema (pleural), Janeway, E. G., 498; the pathology, genesis and development of some of the more important symptoms in traumatic hysteria and neurasthenia, Prince, M., 511, 536, 560; two cases of tetanus, both treated with anti-tetanic serum, both fatal, Homans, J., 519; post-operative neurasthenia, Lord, S. A., 588.
**Nichols, E. H.** The surgical aspect of the pathology of tuberculosis of the bones and joints, 81, 85.
**Night** duty for adolescents, 409.
**Non-medicinal** methods of treatment, von Leyden, 530.
**Nose.** The relation between the nose and the sexual apparatus, 138; complete congenital occlusion of the posterior nares, report of a case, Clark, J. P., 171, 183; a differential diagnosis of empyema of the accessory cavities of the nose by internal examination, Coffin, R. A., 274; changes in the turbinated bones in connection with deformities of the septum, Coolidge, A., Jr., 540, 547.
**Noyes, W. B.** Neuritis following an infected vaccination, 15.
**Nursing.** On some of the qualities necessary for being a good nurse, Watson, F. S., 217.
**Obesity.** The treatment of obesity, 91.
**Ogden, J. B.** Hematoporphyrinuria, with the report of a case, 169; remarks on cystinuria, examination of the urine and calculus, 367, 378.
**Orthopraxy.** Disease and deformity of the tibia, Ketch, S., 36; a case of genu valgum, Sayre, R. H., 37; kyphosis of uncertain origin, Townsend, 37; pathology in its relation to orthopedic surgery, Lovett, R. W., 461; orthopedic report, Bradford, E. H., and Brackett, E. G., 614.
**Osler, W.** Paralysis of the left recurrent laryngeal nerve in mitral stenosis, 498.
**Osteopathic Circular.** Beware of the osteopathic circular, Egan, J. A., 579.
**Otis, E. O.** Hospitals and sanatoria for consumption abroad, 265, 313, 329.
**Paddock, F. K.** Large renal calculus, 348.
**Page, R. M. C.** Anemia, 158.
**Palate.** Some modifications of the operation for closing congenital fissures of the palate, Fillebrown, T., 105, 113; a unique case of edema of the superior surface of the soft palate, Reardon, T. J., 251.
**Palmer, S. E.** Report of four cases of hysterectomy for fibroids, 343, 352.
**Pancreas.** Traumatic rupture of the pancreas, formation of hemorrhagic cyst, operation followed by a pancreatic fistula and recovery, Cushing, H. W., 429.
**Park, E.** An inquiry into the etiology of cancer, with some reference to the latest investigations of the Italian pathologists, 427.
**Patella.** Three cases of transverse fracture of the patella treated by wiring; recovery, with excellent result in each case, Meigs, J. V., 33; an operation for slipping patella, Whitman, R., 37; comminuted fracture of each patella, Scudder, C. L., 231; the question of operative interference in recent simple fractures of the patella, Powers, C. E., 425.
**Pathology.** The influence of pathology upon therapeutics, 114; report on pathology, Wright, J. H., 204; the relation of pathology to medicine, Councilman, W. T., 557, 581; the preservation of pathological specimens, Johnson, F. W., 572; calcerous change in an interstitial fibroid, Johnson, F. W., 572.
**Peabody, F. G.** Address before the Massachusetts Medical Society, 570.
**Pediculosis** in Boston's public schools, Greene, E. M., 70; pediculosis in the public schools, 92; pediculosis, Harding, G. F., 95.
**Peterson, F.** Enormous hydrocephalus, 15; abscess of the brain, 16; hemiatrophy of the brain, 16.
**Phelps, A. M.** Congenital dislocation of the shoulder backwards, with a report of seven cases and an operation for its relief, 185.
**Phillips, W. C.** Ear manifestations in general disease, 157.
**Physician.** Obligation of the physician and the layman to each other, 185.
**Physiology.** A written examination in physiology, 70; the experimental production of fat necrosis, Williams, H. U., 342; recent progress in physiological chemistry, Hewes, H. F., 348, 372.
**Pilcher, L. S.** Castration for the relief of hypertrophied prostate, 185.
**Plague.** The vitality of the plague bacillus, Hankin, E. H., 213; plague and the Mecca pilgrimage, 481.
**Pneumonia.** The clinical course of pneumonias in which there is an infection with streptococci, Denny, F. P., 341.
**Poisons.** The properties of snake poison, Stone, A. K., 321; a case of carbolic-acid poisoning, Holyoke, F., 394.
**Political** responsibility of the physician, 93.
**Polk, W. M.** Final report of the committee on the semi-centennial celebration, 402; surgical treatment of fibroids, 403.
**Potter, W. W.** The advantages of State control in medicine, 158.
**Pott's Disease.** The forcible correction of the deformity in Pott's disease, Lovett, R. W., 228.
**Powell, S. D.** Address before Medical Society of the State of New York, 157.
**Powers, C. A.** The question of operative interference in recent simple fractures of the patella, 425.
**Practice.** Some aspects of medical practice, Rovinsky, A., 419.
**Practitioner.** Political responsibilities of the physician, 93; the difficulties of the general practitioner, 94.
**"Practitioner"** and the medical profession in the United States, 68.
**Prague.** A letter from Prague, 94.
**Preble, W.** Secondary hemorrhage following the removal of adenoid vegetations, 467.
**Pregnancy, Affections connected with.** Use of antitoxin in two cases of puerperal sepsis, Clark, L. B., 27; post-mortem delivery, 45; the anatomy and function of the pelvic floor in women and the operation for repair of injuries due to parturition, Goffe, J. R., 160; recent progress in obstetrics, Townsend, C. W., 180; the induction of premature labor by means of glycerin, Saft, H., 212; two cases of spontaneous rupture of the uterus during labor, Healy, J. J., 369; fibroids complicating pregnancy, Coe, H. C., 403; two cases of extra-uterine pregnancy, one at full term, Swift, J. B., 441, 453; two specimens illustrative of the pathology of extra-uterine pregnancy, Whitney, W. F., 444, 453; two cases of Cæsarean section, Washburn, G. H., 516, 524; fibroid tumors as a complication of pregnancy and labor, Call, E. L., 564, 574; diagnosis of puerperal septicemia, with cases, Garceau, E., 567, 573; Cæsarean section *vs.* symphyseotomy, Washburn, G. H., 611, 620; a case of extra-uterine pregnancy, Johnson, F. W., 613, 620.

**Prewitt, T. F.** The future of the American Surgical Association, 425; gunshot injuries of the spine, with report of a case, 451.
**Prince, M.** Accident neuroses and foot-ball playing, 392; the pathology, genesis and development of some of the more important symptoms in traumatic hysteria and neurasthenia, 511, 536, 560.
**Profession.** The diminished rush into the medical profession, 362.
**Prostate Gland.** Management of hypertrophy of the prostate gland and its complications, general considerations and catheter life, Bangs, L. B., 185; prostatectomy and prostatotomy, suprapubic and perineal, Alexander, S., 185; Bottini's galvano-caustic radical treatment, and the palliative treatment for hypertrophy of the prostate, Meyer, W., 185; castration for the relief of hypertrophied prostate, Pilcher, L. S., 185; stone associated with hypertrophy of the prostate, Keyes, E. L., 185; prostatectomy by combined suprapubic and perineal methods, Watson, F. S., 423.
**Pryor, J. H.** What shall the State and County do for the consumptive, 158.
**Putnam, J. J.** The medical registration bill, 263.
**Railway** surgeon and his work, Herrick, C. B., 158.
**Ramsay, W.** A new element in the atmosphere, krypton, 625.
**Ransom, J. B.** Expert medical testimony, 158.
**Reardon, T. J.** A unique case of edema of the superior surface of the soft palate, 251.
**Recent Progress.** Ophthalmology, Standish, M., and Hall, W. D., 12, 34, 58; genito-urinary surgery, Watson, F. S., 57; neurology, Knapp, P. C., 111; pathology, Wright, J. H., 204; dermatology, Bowen, J. T., 252; legal medicine, Dwight, E. W., 276; gynecology, Reynolds, E., 300; thoracic diseases, Sears, G. G., 326; public hygiene, Abbott, S. W., 370, 397; surgery, Burrell, H. L., and Cushing, H. W., 446, 468, 520, 589; orthopedic report, Bradford, E. H., and Brackett, E. G., 614.
**Rectum.** Observations on malignant adenoma of the rectum, Cabot, A. T., 543, 547.
**Registration.** Medical registration in Massachusetts, 66; liberty, license or law, 234; the medical registration bill, Putnam, J. J., 263; the professor of philosophy in Harvard College, 286.
**Remington** litter carrier, 481.
**Respiratory System.** Consumption: an indoor disease, Abbott, S. W., 1; some considerations of tuberculosis, Gage, J. A., 4; a case of transposition of the viscera, Vickery, H. F., 34; anatomical specimens, Knight, F. I., 38; what shall the State and County do for the consumptive, Pryor, J. H., 158; intra-tracheal injections for diseases of the bronchial-tubes and lungs, Drayton, H. S., 186; pulmonary abscess and gangrene, Withington, C. F., 220, 231; hospitals and sanatoria for consumption abroad, Otis, E. O., 265, 313, 329; report on progress in thoracic diseases, Sears, G. G., 326; the clinical course of pneumonias in which there is an infection with streptococci, Denny, F. P., 341; chronic catarrhal process following scarlatina, Farlow, J. W., 374; antitoxin treatment of pneumonia, Smith, A. H., 500; pulmonary tuberculosis treated with Koch's tuberculin, Nelson, C. D., 588; surgery of the lung, Murphy, J. B., 619.
**Revolver.** The new automatic revolver, von Bruns, 119.
**Reynolds, E.** The relation of the ureteral catheters to the surgery of the kidneys in children, 247; report on progress in gynecology, 300; two cases illustrating the value of exploratory laparotomy, 517, 524.
**Richardson, M. H.** A case of restoration of the female urethra and closure of the bladder after extensive laceration, 202, 207; fluid from an abdominal tumor, 255; the indication for nephrectomy, 256.
**Richardson, M. W.** Recent bacteriological studies in typhoid fever, 148.
**Rickets.** The treatment of rachitic deformities, Sayre, R. H., 185.
**Rivals** of the physician in practice, Wilcox, R. W., 158.
**Rockwell, A. D.** A new device for adapting the incandescent electric current to therapeutic purposes, 17.
**Roe, J. O.** Cases of acute non-diphtheritic inflammation of the larynx requiring the prolonged retention of the intubation-tube, 158.
**Rontgen Rays.** Changes in the skin and viscera caused by the x-rays, 259; the x-ray in medicine, Williams, F. H., 159; x-ray dermatitis; suit for damages, Boyd, F., 166; x-rays and signs of death, 529.
**Rovinsky, A.** Epidemic suicides, 238; some aspects of medical practice, 419.
**Rush.** Report of Rush monument fund, Gihon, A. L., 596.
**Russia.** How Russia cares for her foundlings, Hildreth, J. L., 509, 533, 562.
**Saft, H.** The induction of premature labor by means of glycerin, 212.
**Sanborn, F. B.** American Social Science Association, 287.
**Sayre, R. H.** A case of genu-valgum, 37; the treatment of rachitic deformities, 185.
**Scarlatina.** Chronic catarrhal process following scarlatina, Farlow, J. W., 374.
**Schools.** Report on physical training in the Boston public schools, Channing, W., 25, 38; pediculosis in Boston's public schools, Greene, E. M., 70; pediculosis in the public schools, 92.
**Scudder, C. L.** The ambulatory treatment of fractures, 102; comminuted fracture of each patella, 231; tuberculosis of the breast, 233; major amputations at the Massachusetts General Hospital, 609.
**Scurvy.** Infantile scurvy, Morse, J. L., 38; the American Pediatric Society's collective investigation on infantile scurvy in North America, Griffiith, J. P. C., Jennings, C. G., and Morse, J. L., 605.
**Sears, G. G.** Report on progress in thoracic diseases, 326.
**Semen.** Cholin, the active principle in Florence's test for semen, Whitney, W. F., 397.
**Senn, N.** The etiology and classification of cystitis, 426.
**Shattuck, F. C.** Some remarks upon hospital abuse, 413.
**Smith, A. H.** Antitoxin treatment of pneumonia, 500.
**Smith, T.** The toxin and antitoxin of tetanus, 292, 303; comparative studies of bovine tubercle bacilli and of human (sputum), 497.
**Snakes.** The properties of snake poison, Stone, A. K., 321.
**Societies.** American Association for the Advancement of Science, 336; American Medical Association, 337, 408, 577, 594, 617; American Social Science Association, 287; American Surgical Association, 425, 450; Association of American Anatomists, 208; Association of American Physicians, 475, 497; Boston Medico-Psychological Society, 379; Boston Society for Medical Improvement, 38, 132, 183, 231, 278, 329, 471; German Congress for Internal Medicine, 434; German Society of Surgery at Berlin, 433; International Congress of Hygiene and Demography at Madrid, 457; Massachusetts Medical Society, 137, 568, 571; Massachusetts Medico-Psychological Society, 86; Medical Society of the State of New York, 157, 184; New York Academy of Medicine, 36, 402; New York Neurological Society, 14; Obstetrical Society of Boston, 207, 453, 524; Suffolk District Medical Society, 62, 85, 113, 157, 255, 303, 351, 374, 399, 492, 571, 592, 620.
**South African Dentists,** 409.
**Spina Bifida.** Four cases of rupture of the spina bifida sac, three during childbirth, Thorndike, A., 178, 183.
**Spine.** The clinical and pathological report of a case of fracture of the spine in the cervical region, with some statistics on fractures in this region, Courtney, J. W., 29; kyphosis of uncertain origin, Townsend, 37; a new head-support for caries of the spine, Young, E. B., 60; the forcible correction of the deformity in Pott's disease, Lovett, R. W., 228; gunshot injuries of the spine, with report of a case, Prewitt, T. F., 451.
**Splints.** Scientific splinting, Tracy, E. A., 110.
**Spooner Bill** and the New York Academy of Medicine, 188.
**Standish, M., and Hall, W. D.** Recent progress in ophthalmology, 12, 34, 58.
**State Control.** The advantages of State control in medicine, Potter, W. W., 158.
**Stedman, H. R.** The after-care of the insane, 339.
**Sternberg, G. M.** Bacillus icteroides (Sanarelli) and bacillus x (Sternberg), 497; address before the American Medical Association, 594.
**Stewart, D. D.** Gastric carcinoma associated with hyperchlorhydria, 475.
**Stomach.** Living without a stomach, 18; the testimony of gastrodiaphany as to the position of the stomach, 405; case of removal of the entire stomach for carcinoma; successful esophago-duodenostomy; recovery, Brigham, C. B., 415.
**Stone, A. K.** The properties of snake poison, 321.
**Storer, M.** On vulvo-vaginitis in children, 49, 62.
**Suffocation.** Deaths from suffocation in England, 190.
**Suicide.** Epidemic suicides, Rovinsky, A., 238.
**Surgery.** Recent progress in surgery, Burrell, H. L., and Cushing, H. W., 446, 469, 520, 589.
**Swift, J. B.** Two cases of extra-uterine pregnancy, one at full term, 441, 453.
**Syphilis.** Treatment for tertiary syphilitic ulcers, Cumston, C. G., 310; gastric syphilis, with the report of a case of perforating syphilitic ulcer of the stomach, Flexner, S., 476; some observations on cardiac syphilis, Adler, L., 476; danger of error in diagnosis between chronic syphilitic fever and tuberculosis, Janeway, E. G., 476.
**Targowla.** A tramp with progressive muscular atrophy, 263.
**Taylor.** Unusual dislocation of the tibia, 38.
**Terriss.** The murder of William Terriss, 118.
**Tetanus.** The toxin and antitoxin of tetanus, Smith, T., 292, 303; two cases of tetanus, both treated with anti-tetanic serum, both fatal, Homans, J., 519.
**Thayer, W. S.** Nephritis of malarial origin, 477.
**Therapeutics** of literature, 599.
**Thomas, J. J.** Acute degenerations of the nervous system in diphtheria, 76, 97, 123.
**Thompson, W. H.** A case of chronic infective endocarditis, with streptococci found in the blood before death; treated by anti-streptococcus serum; and experiments on the effects of injections of serum and of antitoxins upon the kidneys, 501.
**Thorndike, A.** Four cases of rupture of spina bifida sac, three during childbirth, 178, 183.
**Thorndike, P.** A case of cystic calculus in male bladder, 367, 378.
**Thornton, J. B.** A combined needle forceps and scissors, 523.
**Tibia.** Disease and deformity of the tibia, Ketch, S., 36; unusual dislocation of the tibia, Taylor, 38.
**Tisdale, W. M.** Climate of Southern California, 166.
**Titcomb, G. E.** The Butters homicide affair, 395.
**Tonsils.** On the treatment of certain forms of cervical lymphadenitis by the introduction of medicinal substances into the crypts of the faucial tonsils, Goodale, J. L., 465, 473; constant presence of the pneumococcus on the surface of the tonsil, 555.
**Townsend, C. W.** Recent progress in obstetrics, 180.
**Townsend.** Kyphosis of uncertain origin, 37; a fatal case of hemorrhage under the scalp in a new-born infant, 207.
**Tracy, E. A.** Scientific splinting, 110.
**Trudeau, E. L., and Baldwin, E. R.** Studies of antitoxins for tuberculosis, 501.
**Tuberculosis.** Consumption, an indoor disease, Abbott, S. W., 1; some considerations of tuberculosis, Gage, J. A., 4; pulmonary tuberculosis and tabes combined, Frænkel, 15; remarks upon the proper surgical treatment of tuberculous bone disease, Cabot, A. T., 79, 85; the surgical aspect of the pathology of tuberculosis of the bones and joints, Nichols, E. H., 81, 85; the conservative treatment of tubercular joint disease, Brackett, E. G., 83, 85; the prevention of tuberculosis in Brookline, Mass., 141; tuberculosis in fishes, 409; comparative studies of bovine tubercle bacilli and of human (sputum), Smith, T., 497; pseudo-tuberculosis hominis streptotricha, Flexner, S., 497; studies of antitoxins for tuberculosis, Trudeau, E. L., and Baldwin, E. R., 501; the report of the royal commission upon tuberculosis, 1898, 502; pulmonary tuberculosis treated with Koch's tuberculin, Nelson, C. D., 588.
**Tuberculin.** The diagnostic and therapeutic value of tuberculin and its derivatives, Kiebs, A. C., 121, 132.
**Tuttle, A. H., Reynolds, E., and Ogden, J. B.** Pyonephrosis, 174, 195.
**Typhoid Fever.** Recent bacteriological studies in typhoid fever, Richardson, M. W., 148; the cold-water treatment of typhoid fever in private practice, Wheeler, J. T., 159.
**Uric Acid.** Is uric-acid diathesis an important factor in pathology? Vaughan, V. C., 498.
**Urinary System.** Report on genito-urinary surgery, Watson, F. S., 57; the other kidney in contemplative nephrectomy, Edebohls, G. M., 160, 387; hematoporphyrinuria, Ogden, J. B., 169; pyonephrosis,

**Tuttle, A. H., Reynolds, E., and Ogden, J. B.**, 174, 195; the relation of the ureteral catheters to the surgery of the kidneys in women, Reynolds, E., 247; the indications for nephrectomy, Richardson, M. H., 256; cystitis in young girls, with a report of three nephrectomies, Garceau, E., 258; large renal calculus, Paddock, F. K., 348; a case of cystin calculus in the male bladder, Thorndike, P., 367, 378; remarks on cystinuria, examination of the urine and calculus, Ogden, J. B., 367, 378; prostatectomy by combined suprapubic and perineal methods, Watson, F. S., 423; the etiology and classification of cystitis, Senn, N., 427; an instrument for facilitating catheterization of the ureters, Garceau, E., 471; nephritis of malarial origin, Thayer, W. S., 477; acute interstitial nephritis, Councilman, W. T., 477; a case of myxedema and albumosuria, treatment with thyroid extract, death, Fitz, R. H., 478; intravenous infusion in a case of uremia, Metzger, B., 491.

**Vaccination.** Neuritis following an infected vaccination, Noyes, W. B., 15; glycerinated vaccine lymph, 188; vaccine virus, 555.

**Van Allen, T. F. C.** The report of a case of unusual contraction of the visual field and disorder of the color sense following an injury, 158.

**Vaughan, V. C.** Is uric-acid diathesis an important factor in pathology? 498.

**Vaughan, V. C., and McClymonds, J. T.** The bacteriology of cheese, 501.

**Venereal** diseases in Paris, Macdonald, W. G., 506, 530.

**Vickery, H. F.** A case of transposition of the viscera, 34.

**Vietor, A. C.** A case of septicemia (gonotoxemia?) treated with the streptococcus antitoxin, recovery, 297, 303.

**Virus** without micro-organisms, 479.

**Vivisection.** Maine views on the antivivisection bill, 359.

**Von Bruns.** The new automatic revolver, 119.

**Walcott, H. P.** Address before the Massachusetts Medical Society, 569.

**Walker, J. E.** Actinomycosis, 184.

**War.** The accident neuroses of the war, 357; war and modern surgery, 431.

**Warren, J. C.** Modern operation for cancer of the lip, 177; sarcoma of the mesentery of the cecum, 177.

**Washburn, G. H.** Two cases of Cæsarean section, 516, 524; Cæsarean section *vs.* symphyseotomy, 611, 620.

**Watson, F. S.** Report on genito-urinary surgery, 57; a case of rupture of the small intestine from contusion of the abdomen, resection of the bowel five hours after the injury, recovery, 129; anatomical specimens, 132; on some of the qualities necessary for being a good nurse, 217; prostatectomy by combined suprapubic and perineal methods, 423.

**Weber, H.** Health resorts and water for the anemic, 191.

**Wentworth, A. H.** Observations on meningitis in infants and children, 241, 268, 289, 318.

**Wheaton, J. L.** A case of asthenic bulbar paralysis, 54.

**Wheeler, J. T.** The cold-water treatment of typhoid fever in private practice, 159.

**Whitman, R.** An operation for slipping patella, 37.

**Whitney, W. F.** Cholin, the active principle in Florence's test for semen, 397.

**Wilcox, R. W.** The rivals of the physician in practice, 158.

**Williams, F. H.** The x-ray in medicine, 159.

**Williams, H. U.** The experimental production of fat necrosis, 342.

**Winslow.** The foramen of Winslow, 602.

**Wise, P. M.** The past, present and prospective methods of treatment of insanity in the State of New York, 184.

**Withington, C. F.** Pulmonary abscess and gangrene, 220, 231.

**Woolsey, G.** Abdominal incisions, 119.

**Wright, J. H.** Purulent general peritonitis from carcinoma of the head of the appendix, 150; report on pathology, 204; report of a case of madura foot, 500.

**Wry-neck** and asymmetry of face, Hammond, G. M., 15.

**Young, E. B.** A new head support for caries of the spine, 60.
